"Since I have been in office as District Attorney, Merrill E. Torrey has assisted me in Hampshire County. I have found him honest, straight-forward, conscientious, energetic and competent.

He has tried many cases in the Superior Court on behalf of the

Commonwealth. His work at all times has been entirely satisfactory.

In my opinion he is qualified to perform the duties required of the District Attorney of this district. I commend his character and qualifications to the people of Hampshire and Franklin Counties.

## NORTHFIELD BROTHERHOOD

The Northfield Brotherhood will hold its first meeting of this year on next Tuesday evening in the vestry of the Trinitarian Congregational Church. As is customary a supper will precede the regular business meeting and program, starting at 6:30. The speakers at this first meeting will be the Rev. Mr. Truesdell of Bernardston, who will give a talk on Astronomy, and Mr. L. P. White, who will give a brief resume of current events.

An invitation to all the men of the community to join the Brotherhood is extended. Meetings are held once a month, on the third Tuesday, with a supper at 6:30, and an interesting program following. The dues are five dollars a year, which covers all the eleven supper admissions. The same dues also cover a sick benefit to the extent of five dollars a week for four weeks and a death benefit of twenty-five dollars.

Perhaps more important than these material benefits named above are the opportunities for fellowship with the church of God and with men. The Brotherhood aims to make the meetings friendly in atmosphere; a good opportunity is given for social talk around the table. The programs are arranged to present information interesting to all.

The Brotherhood has been an established institution in Northfield for many years. It welcomes all the men of the community, both new and old, to share in its privileges.

The officers for the coming year are as follows: Harry A. Erickson, president; Dr. Richard Holton, vice-president; Grove Deming, secretary; Leon Alexander, treasurer; Dan Bodley, assistant secretary-treasurer; Rev. W. Stanley Carne, pastor; H. H. Morse, Bible Class teacher.

MOUNT HERMON ALUMNI

The Mount Hermon Alumni Association has issued a letter to all Alumni in Franklin County calling to their attention the qualification of Dean Thomas E. Elder for the office of County Commissioner.

## Garden Club

It seems to be the impression that the Garden Club is purely a summer activity and that now that the Flower Show is over, we, in common with the bear and woodchuck, are going to hibernate. On the contrary, we are expecting to have a most interesting winter. Seed catalogues never look so alluring, as when the wind is howling around the corner, and the snow piling up in great drifts outside the door. Then is the time to plan for next season's work. And what more pleasant occupation could one find, than to sit in an easy chair, before an open fire and let "The Garden that lies around the Corner," take on a semblance of reality. The roses will never smell as sweet, or the larkspur as blue, as those we see in January, the Snow Moon of the Indians.

But we do not want the winter days to be given over merely to dreams. There are so many things we can do. The Program Committee is already planning the winter's programs and other social activities are being considered.

By the way, will those who are going to have surplus stock of anything, please remember that we are going to have an exchange sometime soon. If you have anything that you can share with your neighbor, keep this in mind. Bulbs, seeds and plants, anything that you can spare and that will be of use. The "gardens" will gain in beauty and variety, the man next door will seem far more interesting after you have given him of your plenty, and you will yourself will be happier, by sharing.

The man or woman who lives for self alone, is never happy. The lives of men may be knit together by a hundred ordinary ties, and yet each will walk alone. It is when they begin to share the finer things of life, that they learn the true sweetness of fellowship. When we share the lovely things the objects of our especial care and tenderness, we are sharing in a larger sense, our best selves. When we pass on that which we value, or that which is the most beautiful in our own eyes, we are making it more truly our own, for the thing we possess most in our hearts and souls, is that which has left our hands forever. Hoarding is murder. A man may hoard gold, but it kills his own soul in the end, and when it comes to those things without which life is empty indeed, we cannot afford to hold on to them. Love, sympathy, beauty, all that goes to enrich our lives, only blackens and dies like forgotten pearls, when unused. But send them out into the world, pass them on to the man in the street, and they will return enlarged an hundred-fold.

Blanche I. Corser.

Mr. Wright has served three years in the Massachusetts State Legislature and more recently has had charge of the welfare work in his town and been Administrator of the C.W.A. and E.R.A. projects in Rowe.

Mr. Wright because of his seasoned judgment and methods of administrative economy has been likened by his admirers to the late Calvin Coolidge.

## HARRY W. FAY CANDIDATE FOR 4-YEAR TERM OF COUNTY COMMISSIONER

Many in this section are interested and are supporting Harry W. Fay of New Salem who is a candidate for the four-year term for County Commissioner in Franklin County. Mr. Fay has always been a resident of New Salem where he was born and where he has long been prominent. His knowledge of roads and road building is one thing greatly in his favor for election. For 26 years Mr. Fay was an Associate Commissioner of the County. His father, the late Beriah W. Fay was for many years the leading surveyor of this part of the state and his son learned that profes-

sion working with his father. For many years, Mr. Fay located many property lines and laid out roads in Athol, Orange and other towns. For the past 22 years Mr. Fay has been a trustee of New Salem Academy and most of the time on the Executive Committee.

During 1930 and 1931 he planned and supervised the construction of a fine athletic field for New Salem Academy, giving his services for many months. He has also given freely of his time to many other public enterprises.

He has been trustee of New Salem Public Library many years, being Chairman much of the time; also Trustee of Wheeler-Elis Fund; Administrator or Executor of several estates, one of them being in Indianapolis, Indiana, where he went for a time in 1915. Being one of the heavy taxpayers of his home town, it is needless to say that he is vitally interested in a low tax rate. He is a member of the New Salem Town Forest Committee. This committee has had 18,000 white and red pine trees planted. He is also Vice-President of New Salem Historical Society; Secretary and Treasurer of New Salem Academy Alumni Association; Granger for twenty-eight years, being a charter member of New Salem Grange and also of Swift River Valley Pomona.

## EDITORIAL

Next Thursday is Primary Day. Every voter regardless of party affiliation should get out and exercise his or her franchise. It has been often said that a State or nation gets the kind of Government it deserves, and this is true. If you are willing to let the other fellow do the voting you must be satisfied with the men and women he elects.

The Republican Party has the chance of a decade to get back the guidance of Massachusetts.

It has a State ticket that no man can be ashamed of. Led by Gaspar Bacon and ably seconded by our beloved neighbor, John Haigis it is headed for victory and nothing but the apathy of the registered Republican voters can stop it. The fact that there is no State Contest is no reason for the voters to remain at home. The local contests in the county should bring out a large vote. With so many unqualified men asking for endorsement the polls should be crowded.

Vote early and give the officials a chance to do their job free from the pressure of a last minute rush. But beyond all other consideration remember if you don't vote you have no license to criticize the public servants who are elected. Remember the date, Thursday Sept. 20th. Polls open from 4 to 8 P. M.

## People's Forum

To the Editor of the Herald:

At the last meeting of the executive committee of the First Parish, Unitarian, before the vacation of the church it was voted to dispense with the collections in the religious services after the reopening in the autumn. This was suggested at the beginning of the pastorate, January, 1930, and the Unitarian Church in Montpelier, Vt., was named as exemplary in not having such collections but providing in the vestibule a receptacle for the offerings of the people.

It was wanted by the minister that there might be at least one church in this town that would not affront persons, not regular supporters, with a sort of dun for money in the passing of collection plates, and as there are some persons here and there and everywhere who avowedly do not attend church because of it. By providing a place for the reception of the offerings of the people there is the opportunity of giving in its utmost consistency, "not letting the left hand know what the right hand is doing," as we are enjoined. It is made perfectly convenient for regular subscribers to the support of the church to deposit their offerings in envelopes bearing their names, to be credited by the collector or treasurer.

There are occasions whereon the passing of collection plates in a service is fitting, when there is some specific purpose to which funds should be applied in keeping with a Christian mission in the world at large, and occasions of the kind are in the Conference which meets in this town annually, when the collections should be for the work of the Conference, with every sense of propriety and in its need of them, that the work may be maintained at a standard of highest efficiency.

### SUMMER, FAREWELL!

Red leaves and berries,  
And hoar frost soon.  
The days grow short,  
And the harvest moon  
Is a thin, pale sickle,  
Now, wan and old.  
The seed pods brittle  
Their sheaths unfold  
So next year's flowers  
Are sown, and lie  
Safe 'neath the grasses.  
A cloud strewn sky  
Presages wind and  
A-tattered gown  
For departing summer,  
Her grene turned brown.  
—A. L. Webb.

### INTERESTING DAYS

Both Protestant and Catholic historians agree that Alfonso Maria de Liguori was a model pastoral character. He was a Neapolitan of noble family, born Sept. 27, 1696, trained for the law, but deserted luxury and power for simple asceticism, became a Bishop, founded the Redemptorists, and retired to write voluminously on spiritual subjects. He was later canonized.

Kate Douglas Wiggin, beloved of old and young alike for her charming stories, was born in Philadelphia, Pa., Sept. 28, 1859.

The exquisite song, "There's nae luck about the house" might appropriately be sung Sept. 29, as that was the birthday, in 1734, of the poet William Julius Mickle, to whom it is accredited. He failed in business as a brewer before he went up to Oxford and devoted himself to poetry.

A British diplomatist and distinguished general of the Napoleonic wars, Fitzroy James Henry Somerset, Lord Raglan, was born Sept. 30, 1788, and lost an arm at Waterloo. He was later commander-in-chief of the army in Crimea.

It is something to live down a name like Smirke and become a success in business and the arts. Thus did Sir Robert Smirke, elected to the Royal Academy for his accomplishments in architecture. He was born Oct. 1, 1780.

Cordell Hull, Secretary of State in President Franklin Roosevelt's Cabinet, is a Tennessee man, born in what was Overton County, now known as Pickett County on Oct. 2, 1871. He was chairman of the U. S. delegation to the World Economic Conference in June, last year.

Miles Standish, Captain of militia in the Plymouth Colony, who is best known through Longfellow's poem of his courtship of the lovely Priscilla the Puritan maiden, died in Duxbury, Mass., on Oct. 3, 1655.

### TRUDY'S JELLY CAKE

In Grandmother Briggs' nest, old-fashioned penciling she wrote down, more than half a century ago, this recipe of her granddaughter's cake to be made in layers and put together with jelly or jam: 1 cup sugar, 2 eggs, 1 tablespoon sweet milk, butter the size of an egg, 1 teaspoon cream tartar, 1-2 teaspoon soda, a rounding cup of flour, and flavoring to taste.

### AUNT KIT'S FRUIT CAKE

On an adjacent page she has noted the rule for my great, great aunt's fruit cake: 1 cup butter, 3-1/2 cups light brown sugar, yolks of 3 eggs, 1 cup sweet milk, 4 cups of flour in which mix 1 teaspoon of cream of tartar and 1-2 teaspoon of soda, then add the whites of the eggs and 1 lb. currants.

### SOUR MILK DOUGHNUTS

A professional baker, James Yeakey, contributed this recipe: 4 cups sugar, 8 eggs, 3-1/2 cups

regrets now—or later.

sour milk, 4 tablespoons melted  
butter, 4 teaspoons each soda and  
baking powder, nutmeg and va-  
nilla to flavor, and flour enough  
to roll out nicely. Roll very thin,  
and fry in hot deep fat.

### BERLIN PANCAKES

Here is an unusual recipe that  
came from Mrs. L. S. Williston,  
Heidelberg, Germany. When done  
the pancakes will be perfect  
globes, slightly smaller than an  
orange.

Make a plain doughnut dough  
and roll out, first making sure it  
is slightly sweetened and short-  
ened, and cut with a round biscuit  
cutter. Put a teaspoonful of cur-  
rent jelly or jam in the center  
and place another disc on top,  
pinching the edges together tight-  
ly with finger and thumb all  
around. Fry quickly in boiling  
fat, and drain.

### SHOES

Who made the first shoe for  
human wear? Somebody a very  
long time ago, it is certain. For  
we have found paintings on the  
walls of Thebes which prove that  
nearly 4,000 years ago—in 1495  
B.C.—the shoemaker was an im-  
portant tradesman, in the reign of  
Thothmes III. We can therefore  
imagine the Israelites of that day  
fleeing from Egypt with sandals  
on their feet, the soles of papyrus  
strips woven into a mat in much  
the shape of our shoe soles, with  
tops of interlaced thongs tied  
about the ankles. In the reign of  
Dimitian, in 81 A.D., Roman  
streets were cluttered with the lit-  
tle stalls of busy shoemakers,  
fashioning the sandals we see in  
statues and pictures, and boots  
that extended up the leg. To in-  
dicate a new proprietorship of oc-  
cupancy, the purchaser of land or  
premises, or tenant of it, would  
take off a shoe and cast it within  
the borders. This may be the or-  
igin of the custom, traced back to  
early days in Scotland, of throw-  
ing a shoe for luck after a new-  
made bride and bridegroom, token  
of their new possession of each  
other. St. Crispin and his brother  
Crispian, patrons of all shoe-  
makers, are kept in memory with  
processions and festivities on Oct.  
25, the anniversary of "St. Cris-  
pin's Day."

Dictatorships encourage the  
spying of one upon the other.

The Amount of County Taxes

Is LESS Than for 1933!

This means that every town and every tax payer in the  
County will save in the amount of taxes to be paid to  
the County.

The County budget for 1935 will have to be computed  
in the first few weeks of January soon after the County  
Commissioners you elect assume their duties January 1,  
1935, as the State calls for the budget about January  
20th each year.

The preparation of this budget which determines the tax  
rate calls for experience, knowledge of the needs of the  
different departments, and the exercise of good business  
judgment and common sense.

One ride

thousand

WHAT you hear and what you read  
about a car should be considered before  
you buy—but one ride is worth a thousand  
words. Out on the road you get nothing but  
facts. The best place to test Chevrolet's  
Knee-Action is a stretch of bumpy road,  
where you can see for yourself what a big  
difference Knee-Action makes in riding com-  
fort. Chevrolet welcomes this fair and thor-  
ough test because it will acquaint you not only  
with the Knee-Action ride, but with all the  
other features that Chevrolet owners like—  
the smooth, economical, valve-in-head engine

that gives you more speed than you will ever  
care to use; the positive, cable-controlled  
brakes that are safe and reliable in any  
weather; the handsome finish and the roomi-  
ness of bodies by Fisher, and the added comfort  
of Fisher Ventilation. For your own satisfac-  
tion, go to your nearest Chevrolet dealer and  
make the Ownership Test by driving a Knee-  
Action Chevrolet as you would drive your  
own car. Chevrolet is satisfied to let you and  
the ride decide which car is the best for you.

Many people owe success to the habit of systematic saving. By building up a cash reserve they prepared themselves to take advantage of opportunities requiring ready money. And in most cases financial independence began with regular deposits in a bank account.

### TREADWAY ENTERTAINS REPUBLICANS OCT. 8th

Preparations are under way for  
the usual political gathering of  
the city and town Republican com-  
mittee members of the First Con-  
gressional District at Heaton Hall,  
Stockbridge, on Monday, October  
8th, as guests of Congressman Al-  
len T. Treadway.

It appears that with successive  
meetings the importance of this  
gathering in western Massachu-  
setts increases. All candidates on  
the States ticket will attend the  
meeting as it is really the opening  
of the intensive drive in western  
Massachusetts for the election of  
the Republican State ticket. As  
now arranged it is the only visit  
all the State candidates will be  
able to make to this section.

In addition to the State ticket,  
the speakers will be Senator Wal-  
lace H. White, Jr., of Maine, Con-  
gresswoman Rogers of Massachu-  
setts, and Congressman Hamilton  
Fish of New York. Also, Miss  
Sybil Holmes of Brookline, Presi-  
dent of the Woman's Republican  
Club of Massachusetts and As-  
sistant Attorney General of the  
State, and Major Judson Hanni-  
gan, President of the Republican  
Club of Massachusetts, will be  
present.

In due time cards will be sent  
to all the members of the city and  
town Republican Committees of  
the First District. In many in-  
stances new Committee members  
have been elected whose services  
will begin on January 1st. These  
members-elect are also cordially  
invited, and in order that ample  
provision may be made Congress-  
man Treadway will appreciate it  
if they will notify him by mail of  
their intention to attend the gath-  
ering.

As usual, the guests will arrive  
during the forenoon. There will be  
a reception preceding the lunch-  
eon at noon, with speaking con-  
tinuing throughout the afternoon.

Rev. Robert S. Hall, who has been pastor of St. Paul's Methodist Church of Lawrence, Mass., since 1930, has had a book of his accepted by Walter H. Baker and Company of Boston for early publication. The book grew out of an idea conceived by Mr. Hall to stimulate interest in his Sunday evening meetings and is made up of sketches which typify the life of a village in New Hampshire, where Mr. Hall formerly located as pastor.

Previous manuscripts submitted to publishers by Mr. Hall have been rejected, but this one the Baker Company accepted immediately. It will be issued early next month with a foreword written by Bishop Charles Wesley Burns.

New York City is becoming more and more "hands across the sea conscious" following the visit of General Tsi Ting Kai, hero of the Chinese defense at Chapei. The City is now preparing a welcome for the visit of 350 students representing 26 Italian Universities.

The Italians in the metropolitan area are making this event equal in importance to the first coming of Columbus. Parades, banquets, fireworks and pageants are being planned for the visitors on Columbus Day, the last day of their visit here.

It is no secret that the City has become a big tired of the various business "promotions" that have come here under the guise of educational junkets. Therefore, because the boys are paying their

**BOOSTER NIGHT WILL  
BE OBSERVED IN  
8,000 GRANGE HALLS**

The extent to which the Grange is a truly national organization is strikingly illustrated by the plans now making for a universal observance of Booster Night September 29th, in 8,000 Grange halls, located in 34 different states, reaching from Atlantic to Pacific.

On that evening, following an annual custom, all the subordinate units in the United States will stage a rally occasion, carry out a program of great value and invite their families and friends to attend and enjoy it. Speakers will discuss important questions of the day, debates, essays and musical numbers will be carefully arranged and the total audience at this vast series of Grange occasions will iron in high figures.

One number at each of these 8,000 Grange meetings on September 29th will be the reading of a message from the National Master, Louis J. Taber, of Columbus, Ohio, who is everywhere recognized as one of the outstanding farm leaders of the nation. In that message Mr. Taber will summarize important Grange policies and urge the membership to re-

newed efforts and teamwork in behalf of agricultural rehabilitation. For several years this Booster Night, meeting custom among Granges has been steadily growing in popularity, and of the more than 800,000 Grange membership in the United States, probably fully 80% will be in attendance that night—indicating what a power such a concerted activity as this may represent.

## THESE MAKE A Smooth Ride on any Road

It takes more than one or two mechanical features to make a motor car ride safely and smoothly. The comfort that lets you relax in a Ford V-8 for miles after miles over all kinds of roads is due to a combination of many qualities.

The new Ford V-8 is the only American-built car with springing that gives you free action on all four wheels. It offers you the comfort of double-acting Houdaille hydraulic shock absorbers. In addition, when you buy a Ford V-8, you get the roominess of a 112-inch wheelbase car!

You'll also find the Ford V-8 one of the easiest of all cars to drive. A 15 to 1 steering ratio makes turning and parking easy. Oversize brakes "take hold" smoothly and surely. And the Ford V-8 engine, with its thrilling pickup, is a match for any traffic pinch!

Drive the Ford V-8 over New England's roughest roads. And while you relax, remember that in spite of its roominess and handling ease, the Ford V-8 is the most economical car to operate Ford has ever built!

**TREADWAY TO CONDUCT  
CADET EXAMINATION**

Congressman Allen T. Treadway of Stockbridge has received word from the U. S. Civil Service Commission at Washington that the preliminary tests for West Point and Annapolis will be held on Saturday, October 20th. As usual, the examinations will be given in the post office buildings in Pittsfield and Greenfield, and in the city hall in Holyoke. In due time those who have already applied for permission to take the tests will receive the necessary permits. Others who wish to compete should at once communicate with Congressman Treadway at Stockbridge.

There will be two vacancies at West Point and one at Annapolis in the summer of 1935 for the First Congressional District. The preliminary tests to be held on October 20th are for the purpose of securing suitable candidates for the final entrance examinations to be given by the War and Navy Departments in the spring of 1935.

Candidates for West Point will be examined in algebra, plane geometry, English composition and literature, United States history, ancient history, and English grammar. For Annapolis the same subjects are used except that physics is substituted for English grammar. Those who wish to try for both Academies will be required to take all seven subjects. The time allowed is 6 1/2 hours, or 7 1/2 hours for the combined examination.

infantile paralysis is caused by what is known as a filtrable virus. Although in two or three instances it has apparently been spread through raw milk, it is apparently spread in most instances through secretions of the nose and throat of persons who, though healthy, are carrying the virus.

R. E. L.—Is the injection treatment of hemorrhoids effective?

Ans.—The injection treatment of hemorrhoids is a method whereby a sclerosing fluid is injected into one, or more, hemorrhoids, resulting in the formation of scar tissue, which more or less obliterates the blood vessels in the neighborhood. It is an effective method of treating certain types of hemorrhoids, although there is a tendency for them to recur. Only certain types of hemorrhoids are amenable to the injection treatment, and there is some risk of breaking down of the tissues and ulceration, if the treatments are not carefully given. It is a form of treatment now generally used by most physicians who specialize in rectal work, for cases particularly suitable to it.

R. B. J.—Can you advise me concerning treatment of poison ivy? We have tried various remedies without effect. Some check the spread without relieving the itch or rash. Is there a serum treatment?

Ans.—It is not the function of a Health Department to suggest treatment for any condition. Treatment is the responsibility of the medical profession. It is quite possible that the various remedies you have tried for the rash you describe have brought on a skin condition other than the irritation caused by the original ivy poisoning. We suggest that everybody, and especially children, be taught as early as possible to identify poison ivy and to avoid touching it as the best means of prevention of ivy poisoning. This plant has leaves which are shiny and waxy and are three in number. It might be confused with woodbine, but woodbine has five leaves and its berries turn deep blue, while ivy berries are greenish turning to yellow or ivy color.

#### Constipation

Constipation is a disturbance of intestinal function and occurs in many disorders and diseases. It is influenced by sedentary habits and inattention to regular hours of movements. Neglected constipation may cause serious disturbances, and infection may be carried to other parts of the body.

Faulty diet is largely responsible for habitual constipation and the condition is aggravated by the use of cathartics. Water is one of the best intestinal stimulants we have. Excessive drinking is wrong—too little drinking causes difficulty in the normal body functions.

Treatment depends on the determination and elimination of the cause. This is a case for the study and advice of a physician as the treatment must be prescribed for the individual and not for a group. Systematic habits, regular diet, reasonable and proper exercise, and relief from nervous tension are beneficial aids. Laxatives should be avoided if possible as they offer only temporary relief and are often dangerous and habit-forming.

Mrs. G. B. M.—I have read of sea-salt baths being beneficial for infantile paralysis. Can you give me any information that might be helpful for the treatment or prevention of the disease?

Ans.—Whether or not sea-salt bathing will be helpful is not for us to determine. Treatment of the individual patient must always remain in the hands of the individual physician. As to the means of prevention of infantile paralysis, it is wise until further knowledge is available, to keep all children out of crowds during the season when the disease is prevalent. This is equally desirable at all times because of the great susceptibility of children to other forms of communicable disease as well as infantile paralysis. In-

JOHN GARLAND POLLARD,  
FORMER GOVERNOR OF  
VIRGINIA, SAYS:

"The reason I do not attach much importance to denominational differences is that after long observation, I have never been able to find a denomination whose percentage of upright adherents was comparatively pre-eminent."

"If I could find a sect more effective than any other in producing upright, useful lives, that is the group to which I would attach myself. I would not stop to ask its tenets."

THE BACKYARD GARDENER

Y'know, I'm beginning to get more than a little worried about some of the green tomatoes on the vines in my garden. I'm reasonably certain that some of them aren't going to ripen before frost comes, unless it holds off longer than usual.

I tried to check up the other day on some of the ways of sal-

vaging those "vitamin berries." A frost bitten tomato isn't much good to anyone, unless you want to throw it at some choice enemy; and I wouldn't advise that.

Every year, about the time the weather man predicts the first heavy frost, I pick all the green tomatoes and take them into the house. Usually I pick out the biggest ones and set them up on a shelf in the pantry and let them ripen up. Yes, they'll turn red, and come to look like any tomatoes that ripened on the vine. They won't have quite as good a flavor, but even so they'll taste better than the tomatoes that are shipped in from Mexico or other southern points. In case you didn't know it, those tomatoes are green as gourds when they're picked, and usually are turned red with ethylene gas.

But getting back to this matter of saving the green tomatoes, I heard of a new stunt the other day. That is, pulling up the vines and all, and hanging them in the cellar. The vines will need to be sprinkled with water every few days to keep them from wilting too much and to keep the fruit from shriveling. But the fruit is supposed to reach maturity and turn red. I think I'll try it with a few vines but I haven't enough cellar room to let me move in all the tomato patch.

The smaller tomatoes—the green ones I mean—will be taken over by the head of the family and made into green tomato pickle, and pickled, and stuff of that kind. And I'm afraid there'll be some new stunts this year, though, because I saw friend wife reading an article the other day on how to fry, and stew, and stuff green tomatoes. There was even a recipe for green tomato pie! Saints preserve us! If you don't hear from me again you'll know green tomato pie got me.

#### A.A.A. RULING REMOVES DAIRY COW LIMITATIONS

Amherst, Mass., Sept. 14—Massachusetts farmers who signed AAA contracts are now unrestricted in the number of milking cows they may keep, as a result of a recent ruling of the Agricultural Adjustment Administration, removing one of the provisions in the 1934 contracts for reducing tobacco and hog production. This provision had limited the number of cows kept for the sale of milk on the contracting farms to the number kept in 1932 or 1933, whichever was larger. With the restrictions removed during 1934 the farmers may increase the number of cows milked if they so desire.

This ruling, according to Sumner R. Parker, of the Massachusetts State College, who is in charge of the AAA programs in Massachusetts, will apply to some 1300 farmers in this state. "Some of these men are dairy farmers," says Mr. Parker, "and in some instances they have been prevented from building their herds up to normal because of accidents which found them with small herds during 1932 and 1933. The new ruling will be of particular benefit to these men."

It was a very pretty and quiet wedding. The couple were unattended. Only the immediate families being present. The bride was dressed in a traveling dress.

**TO THE EDITOR  
OF THE HERALD**

I am a candidate for County Commissioner for the four year term. I have lived in Greenfield all but the first three years of my life and have always taken an active part in every worthy project. I was one of the organizers of the Greenfield Chamber of Commerce and later elected to the Board of Directors for two terms.

Have served six years on the School Committee and served faithfully on the Board of Select-

men, two years of which I was Chairman.

For six years I was a member of the Massachusetts Legislature and was a member of the Committee on Public Safety and the Greater Metropolitan Water Supply and House Chairman of the latter for four years.

During the time I was Representative I was instrumental in getting the Registry of Motor Vehicle office to locate in Greenfield which has been a great convenience and a saving of time and money to the people of Franklin County.

At the request of the County Commission I had a bill drawn asking permission of the General Court to erect a new Court House at an estimate cost of \$500,000 for Franklin County, this was greatly needed as many records had no fire protection in the old Court House.

After several hearings before the Committee in charge without satisfactory results I prevailed upon the County Commissioners with the assistance of the architect to reduce the estimated cost of the building to a minimum of \$400,000 in order to secure the passage of the bill.

After this was done, we were successful in having the bill approved. The building cost \$252,048. Had this building been delayed until the new code had gone into effect when the price of all the materials had advanced from 25 to 40 percent and the cost of labor was increased 50 percent or more the same building to-day would cost at least \$150,000 more.

I also secured the passage of a bill which made it mandatory for the Board of Appeal of the Industrial Accident Board to hold hearings in Springfield for appeal cases every two months, thereby saving the people in the western part of the State the expense of employing an attorney to go to Boston to plead their cases.

The Metropolitan District Water Supply of which I was House Chairman had the very important matter in disposing of the sewage or pollution from the tubercular hospitals at Rutland where there was no sewer and which were wholly dependent on septic tanks, which under certain conditions would overflow and be liable to pollute the Quinapoxit River a tributary to Wachusett Reservoir on the one side and the Ware River on the other which is a tributary to the Metropolitan Water Supply.

The bill called for a sewer to be laid from Rutland and Holden to the Worcester Sewage disposal plant and was approved by both branches and the House.

In consideration of the faithful and conscientious services rendered the Town, County and State and the broad experience I feel fully qualified for the office of County Commissioner and if nominated and elected will serve the County to the best of my ability.

I feel that it is unfair for some who are anxious for this office and hold two, three or more positions. They should give a little consideration to those who have had no business nor employment for one, two or three years and would be pleased to hold one position or job.

JOHN SAUTER.

**South Vernon**

Services at the South Vernon Church next Sunday and during the week. All on E.S.T. will be as follows:—

9:30 A.M. Church School.  
10:45 A.M. Sermon by the pastor, Rev. Geo. A. Gray.

7:00 P.M. Song Service followed by preaching.

7:30 P.M. Thursday, Sept. 20, Mid-week Service at the Vernon Home. All are cordially invited to come and enjoy these services as they are very interesting.

At the South Vernon Church last Sunday morning, the pastor, Rev. Geo. A. Gray gave a fine address on "The Fruits of Believing."

Rev. and Mrs. Gray sang a beautiful duet, "If He Abide With Me."

In the evening following the Song Service, Mr. Gray preached another fine sermon on the text, "Heavenly Preservation." Another beautiful duet, "Jesus," was sung by E. W. Dunklee and Mrs. Gertrude Gibson.

Mrs. Julia Ennis arrived home Saturday night, after having taken a 300 mile trip, with her sister, Mrs. Mary Johnson and son Philip Johnson, of Amherst, Mass. They visited the White Mts. and other places of interest.

Extensive improvements have been made on the schoolhouse, this summer, by R. E. Bruce and Willis Collier, Sr.

Mrs. Julia Ennis and Mrs. M. H. Brown were among those from South Vernon, who attended the beautiful pageant, "Building a Church, and Candle Light Service, given in Brattleboro, Vt., at the Baptist Church, Sunday night, by the United Sunday Schools of the Methodist and Baptist churches.

This beautiful religious pageant was written by Mrs. R. E. Bruce of South Vernon and it was a wonderful piece of work. There were the closing exercises of the Sunday Vacation Bible School, which has been held at the Baptist Church every Sunday morning this summer. This pageant was worth going, many, many miles to see. All those who stayed at home, missed a wonderful and very beautiful picture.

Every Bible verse the children repeated represented a block in the church, from the basement to the roof and steeple. This beautiful white church was rebuilt by the children before the audience, as they gave the Bible verses.

Back of this church was a large and beautiful Golden Cross, electric lighted. When the church was completed this was also electric lighted showing the beautiful and different colored windows in the church. After this service was over the congregation went to the Chapel to see the many beautiful articles of all descriptions and kinds, from beautiful painted pictures and silhouettes, to Golden Candle sticks and flowers and many other useful articles that the children had enjoyed making this summer. Among the pretty things the children had made was a smaller, but a handsome white, electric lighted church with its stained glass windows. Inside the church was a pulpit and pews.

This was a handsome sight too.

Mr. and Mrs. Elmer Scherlin and Mr. and Mrs. A. H. Farnum attended the Rutland, Vt., Fair, last Thursday.

Mr. and Mrs. Arthur Martindale carried their grandson, Victor Vaughan to Randolph, Vt., Monday to enter the Randolph Agricultural College there.

A Card Party was held at the Pond Schoolhouse, by the Pond School P.T.A. last Friday evening. There were 8 tables of Whist players. The first prize winners were: Miss Addiebell Lane, and Richard Collier. The Consolation Prize was won, by George Scherlin.

Mrs. Algot Scherlin and Mrs. E. W. Scherlin were hostesses. The schoolroom was beautifully decorated with flowers.

Delicious refreshments of sandwiches, cake and coffee were served.

The clapboards were removed, the house was lined with Celotex before replacing them, making the house much warmer for the children this winter. The schoolhouse has also been newly painted inside and out.

The following officers were elected for the coming year by the Pond P.T.A. at their business meeting: Algot Scherlin, President; Mrs. Amy Tyler, Vice-President; Misses Helen Scherlin, Marjorie Tyler and Grace Underwood, Miss Ruth Seward, Secretary; Mrs. Pauline Streeter, Receiving Committee.

Frank Johnson, while doing chores at the barn last Thursday morning, was stricken with a shock, paralyzing his right side, rendering him speechless, so he could not even swallow.

One of the neighbors, Dwight Johnson was called and he came with his car and removed him to the house.

Mr. Johnson is in a critical condition. At last reports, there seems to be a very slight improvement. He is trying to talk and can swallow. He is under the care of Dr. Grace Burnett of Brattleboro Vt. As we go to press word is received that Mr. Johnson died this (Thursday) morning.

Seventy-five or a hundred of the relatives met at the home of Mr. and Mrs. Frank Lackey, last Sunday for a re-union.

The young people attending schools out of town are: Misses Marjorie Tyler, Helen Mulroney, Joanna Alzechev, Laura Underwood, Addiebell Lane, Helen Scherlin, Ellen Heath, John Delaney and Gaylord Gray are attending Brattleboro High School.

Elva Martineau and Beatrice Lackey are attending Northfield High School, and Helen Underwood is attending Northampton Commercial College.
